DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-5, 7, 8, 12-15, 17-26 and 49-51 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Skillicorn, U. S. Patent 4,147,854.

Reference to Skillicorn specifically teaches the required compositions with the hydrocarbon compound in column 8, the component b in column 7 and the liquid polymers throughout the disclosure. Choice of polymer from the monomers disclosed is either taught or rendered prima facie obvious from the disclosure found in column 3. Claims are, therefore, properly rejected as anticipated or prima facie obvious from the teaching of reference to Skillicorn.
